Additional information for International Applicants: International Applicants send this additional information to the Graduate School:

TOEFL scores

Certificate of Finances (COF) form

Financial Certification Statement

Visa Information

**The Graduate School address is: The Graduate School
320 E. Clayton St.
Athens, GA 30602**

The Institution Code is 5813.

All successful Tox applicants must have a Tox Faculty member who has agreed to take on/serve as Major Advisor to the student. The applicant must identify faculty working in areas of interest, then begin a dialogue with those faculty members. The Tox Office should be kept informed of your progress in this area. ***A new feature on the "Faculty" page will list those faculty members who have stated they are looking for a Toxicology applicant.***
