

**UGA Interdisciplinary Toxicology Program
Graduate Advisory Committee Assessment Form**

Student Name: _____ Semester of Matriculation: _____

Degree Objective: _____ Faculty Mentor: _____

Estimated semester of Graduation: _____

Graduate Advisory Committees are expected to meet with their Master's or Doctoral students annually. ITP advisory committees will use this form to assess the student's progress toward their degree objectives. Please return the original completed and signed form to the ITP office.

Advisor completes in Conjunction with Committee:

Demonstrate working knowledge and comprehension of toxicological principles pertinent to their research project.

Employ critical thinking in analyzing and interpreting toxicological data.

Apply Problem-solving skills and toxicological principles to synthesize and test original hypotheses in their research.

Communicate knowledge in the field of toxicology to peers and the public.

If an unsatisfactory rating is given, is a 6-month remedial plan necessary?

Remedial plan action steps: what specific actions should the student take in the next 6 months to address any remediation requested by the Graduate Advisory Committee?

Signature of Major Advisor:

Date:

Signature of Committee members;
